

2017 KAAMCO CONVENTION

GOLF DAY - Sat May 27

Real Club De Golf El Prat

CONTINENTAL EUROPE'S FIRST GOLF COURSE DESIGNED BY GREG NORMAN

The Australian player, whose 88 victories on the professional circuit made him the world's one number one ranked player for 331 consecutive weeks in the 1980s and '90s, emphasized two key aspects in golf: making the game a memorable experience regardless of golfer's level, style and playing preferences, and the idea of blending the course seamlessly with its surroundings, to convey the feeling that the fairways, holes and bunkers have been part of the landscape for generations.

Thanks to the project's excellent design and execution, and to the great work of our greenkeepers, we have created a golf course that has already consolidated its status as one of Europe's best.

Greg Norman Golf Club Design

A 45-HOLE COURSE DESIGNED TO ENJOY EVERY STROKE

45 unforgettable holes that can be split up into five 9-hole courses, giving a combination of up to 9 different courses. We usually have 2 main courses open: OPEN, where major tournaments are played, and BLUE, better suited to all levels of play. RCG El Prat offers multiple variations on how to play them, thus providing infinite experiences by allowing players to change courses. Each stroke is different from the last. What more can you ask of a golf course?

The fairways make the most of the soft natural slope of the terrain. This allows the 45 holes to preserve the area's autochthonous features: wooded areas, open spaces, farmland, natural drainage, sloping hills, etc.

The greens are large and rolling, allowing great variety in pin placement.

Our Courses

EACH TEE BOX HAS 7 MARKERS, RANGING FROM BLACK TO PINK, TO SUIT ALL LEVELS OF PLAY

Playing at El Prat is a true pleasure. Each of its courses is an unforgettable experience. Each stroke conveys unique sensations that make you feel proud of having learned to play golf. You understand why there are golf courses that make the sport great. Without a doubt, El Prat is one of these.
